Strong power for officient operation

omparable strong power, excellent loading capacity.

Larger gradeability Gradeability: 15%,Climbing speed when loaded: 4km/h.

Faster driving speed Driving speed is 14 km/h when fully loaded.

Endurance

Lower energy consumption and 10% more working time under the same working condition .

Focus on the key point of making profit.

Technical Data For FE Series Electric Counterbalance Forklift

FE 4-wheel Electric Counter Balance Forklifts

FE Series Electric iterbalance **.oun Forklifts**

Reminder: All photos here are for reference only and are subject to the phisycal product if there is any difference. Suzhou Pioneer Material Handling Equipment & Technology Co., Ltd reserves final right of explanation.

Comfortable operation to relieve fatigue

Ergonomic control layout, easy & flexible operation.

Side-mounted operation lever Increase comfort of arm and reduce fatigue of muscle.

Lighter and easier steering control

Racing formula steering wheel with small diameter, more flexible for steering.

Ergonomic design ensures comfortable driving posture.

Surrounded seat (optional feature) The seat is adjustable and can relieve

fatigue after driving for a long time.

Big space for foot

Optimum angle pedal layout

Surplus space shows its superiority.

Reliable Operation Ensure the Safety

Comply with international safety standards, provides more protection.

Strong overhead guard

Well protect operator without worrying about the safety.

Zounoll

High steering point

More stable in horizontal position, reduce rollover accidents.

Driver seat built-in sensing switch for safety Operator presence sensing system is

built-in driver seat.

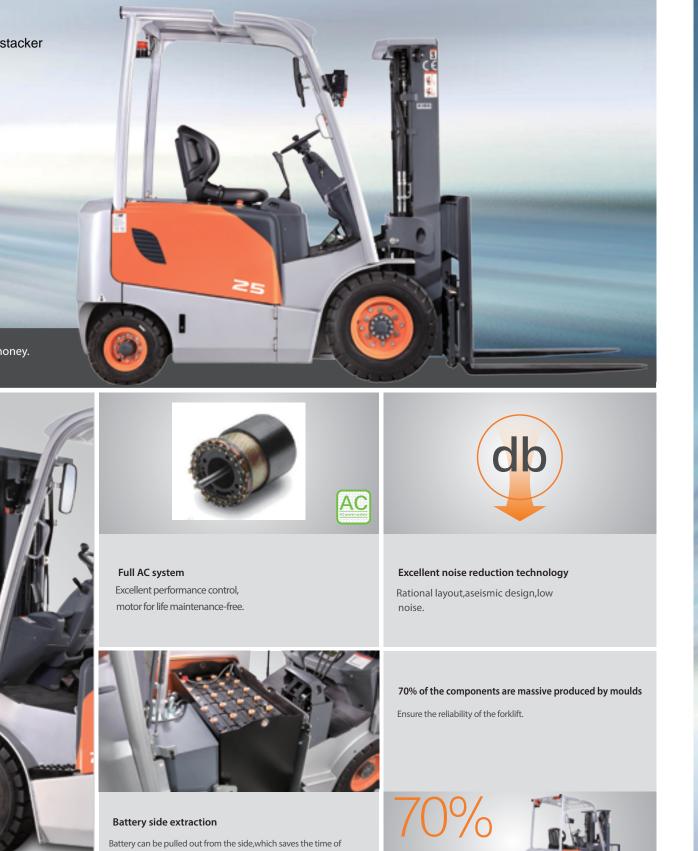

ligh stability and safety.

Easy Maintenance Low Cost.

Easy to maintain, save time, energy and money.

FE 4 wheel electric coumter balance stacker

replacement and improves working efficiency, especially for high

intensity working conditions.

FE 3-wheel electric counter balance stacker

FES 3-wheel electric counterbalance forklift

3-wheel series forklift is in accordance with the design concept of high

performance and it is an ideal selection for storage in small area. Compact and streamlined design ensures tasks can be successfully carried out in narrow space and aisle which will save a lot of money for special forklift suitable for limit area.

Client Cases

Successful cases, carrying reputation

Thanks to strict definition of technology and quality, we get lots of trust from customers, satisfy their more and more requirements for high reliability, energy conservation and environment protection. Our products are well used in different kinds of industries and creat high additional value for customers continuously.
