

Omni Logistics Mexico

Omni Logistics

Omni Presence Around the World

In addition to our 100+ global offices, Omni has multiple carefully vetted agents and trusted partners in every major market around the world. This allows us to be everywhere you need, any time you need us.

4500+
Global Employees

21
Countries

100+
Company Locations

Omni has earned a reputation for performance, reliability, and industry-leading service and solutions through expansion of our capabilities and global footprint.

Early Years

Established reputation as North America's White Glove and Managed Delivery experts with trusted service for high value shipments. Omni's early years led to explosive growth and paved the way to expand services across the globe to various industries.

Expand to Mexico

Omni recognizes need for cross-border logistics in North America and invests in developing expertise in U.S./ Mexico cross-border logistics.

Expand to Asia

As manufacturing continues to grow in Asia, Omni strategically expands its geographic footprint to multiple countries in Asia to give value-added warehouse service offerings internationally.

E-commerce Fulfillment

With historic volumes in online sales, Omni invests in e-commerce fulfillment (both B2B and B2C) capabilities with value added warehousing and distribution services for high-value, high-touch merchandise to meet our customers' ever-increasing demand.

Continued Global Expansion

To provide our customers with an even wider global reach, Omni further expands its geographic footprint in the Middle East, North America and Asia.

The Future

Omni continues to explore opportunities for strategic advancement, providing more global service offerings than ever before.

Omni Linehaul Network

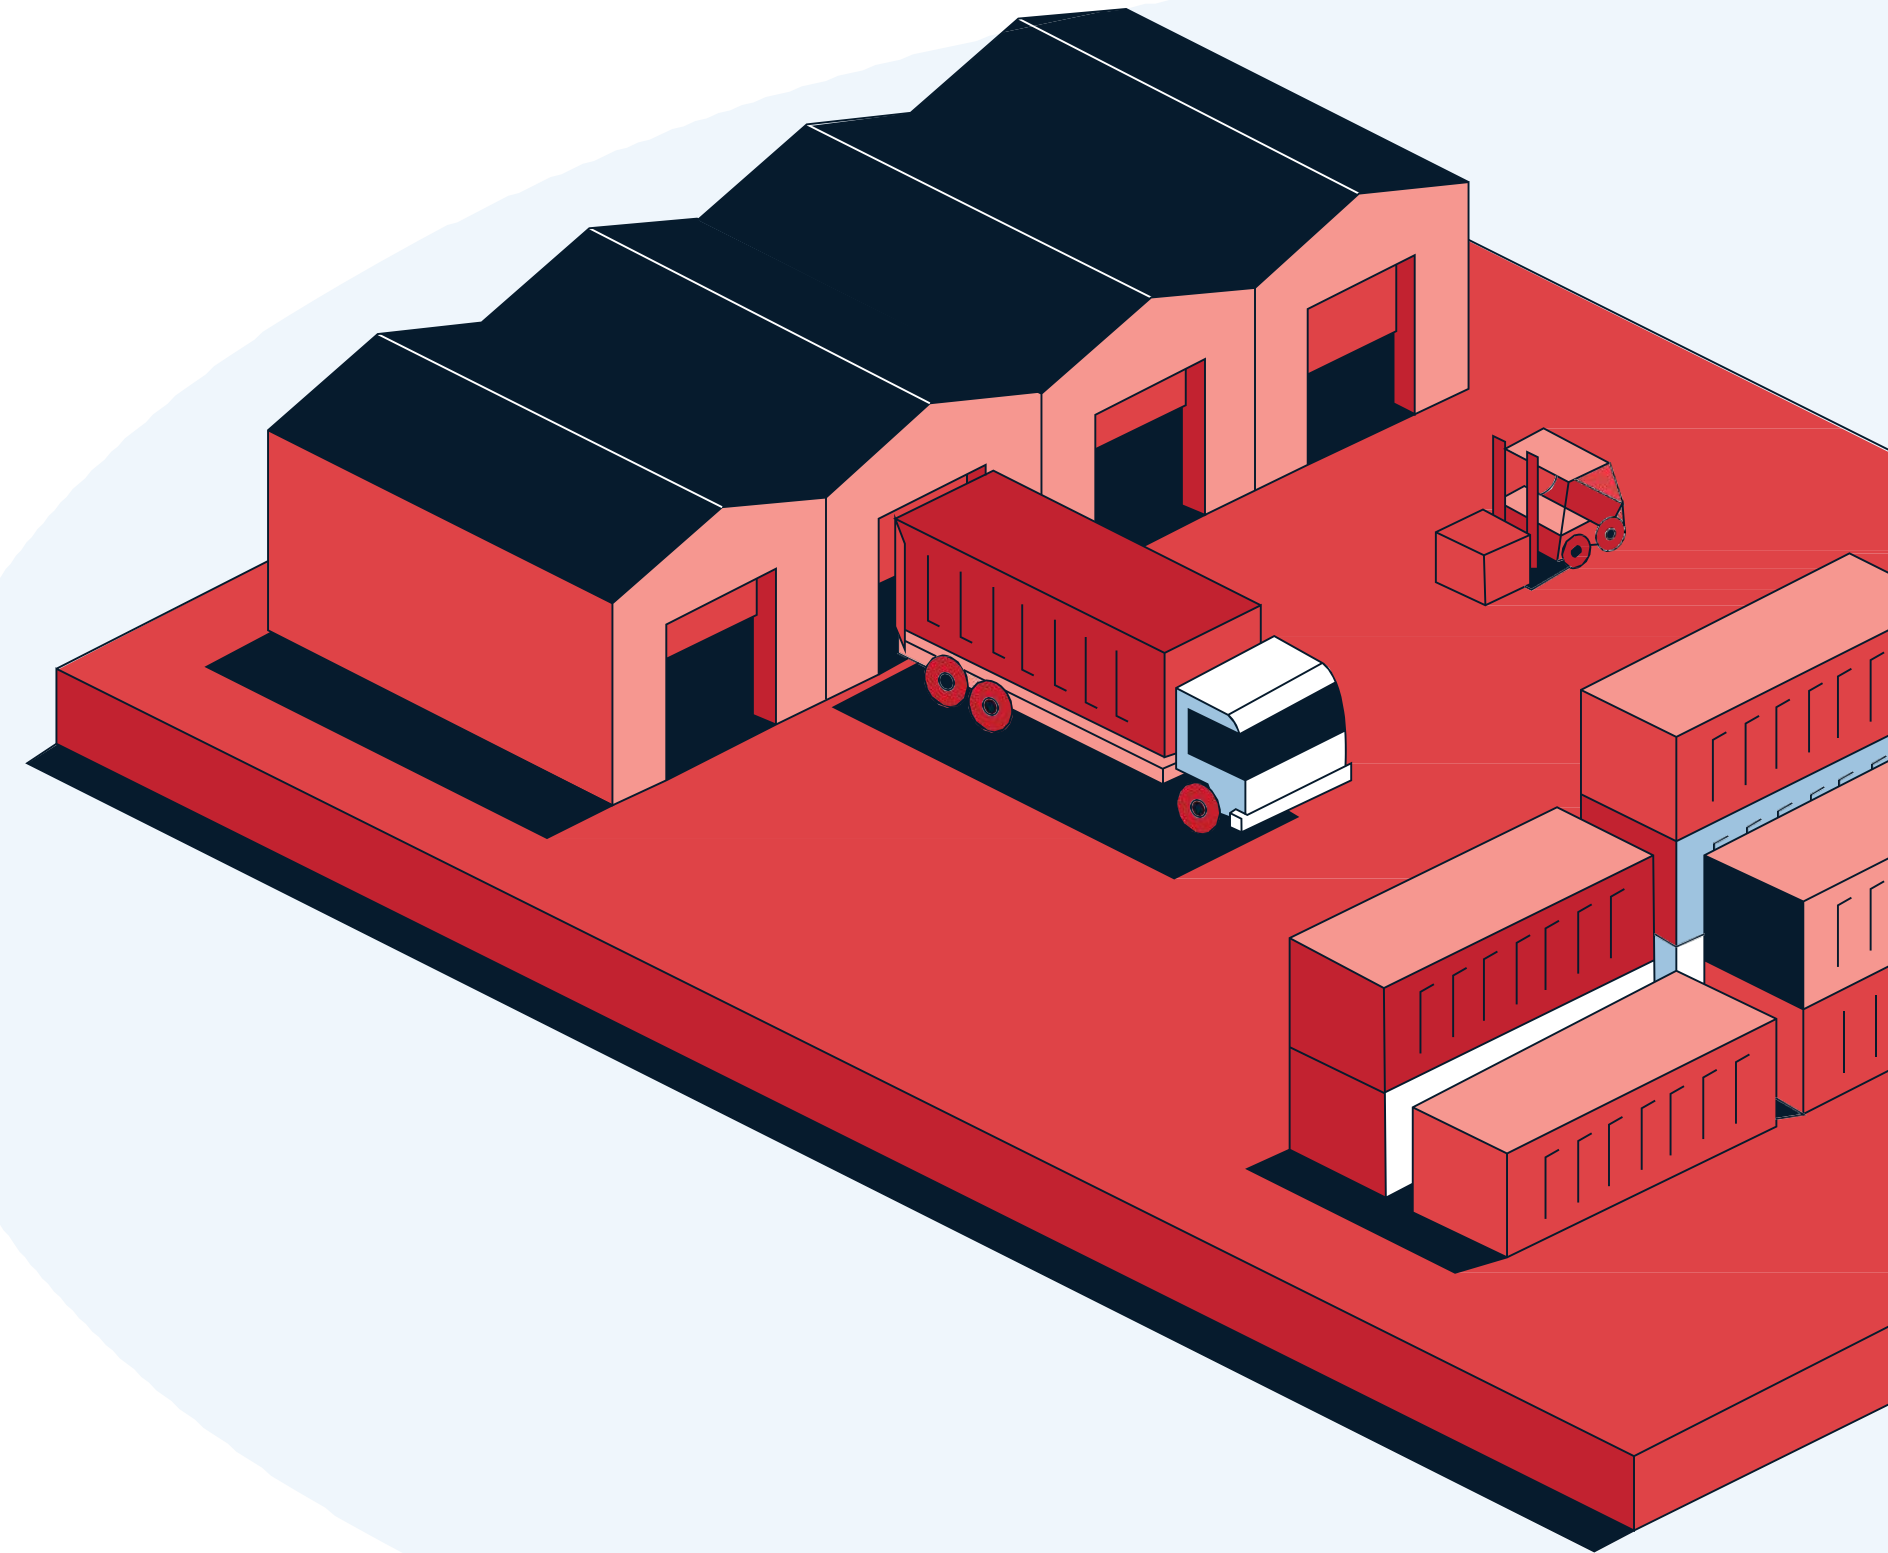

Hybrid Asset Model

Omni offers a hybrid of non-asset based services paired with our strategically positioned fleet of trucks.

Why this model? We listen to our customers and adapt to their requirements. Our hybrid asset model allows you to deploy Omni owned trucks when it makes sense and use our reliable carriers when it doesn't, filling in gaps so you can effortlessly adjust your supply chain to your needs.

Why it matters

- High control of assets
- Eliminates touch points
- Minimized damage risk
- Increase control of scheduling
